**RSVP's requested with number from farm planning to attend. Each farm must complete a short exam at the end of training.**

Some large packers and processors have announced that effective January 1, 2019, buyers representing them will only purchase from farms that are BQA or FARM Certified. Most dairy farms are certified with their dairy processor; ask your dairy rep for document of proof of FARM Certification completion for use at the point of sale. This will be in effect for all markets and all private treaty transactions. It is also believed that beginning in January 2020, additional processors may begin to require BQA or FARM Certification from their suppliers.

Beef producers created the voluntary Beef Quality Assurance Program in 1987 to assist each other in raising, feeding and harvesting high quality beef. By participating in BQA and adopting BQA production practices, you are helping to answer the call from the packers' consumers, for safe beef raised in a humane manner.

Funded by The Beef Checkoff

UW-Extension provides equal opportunities in employment & programming, including Title VII, IX, and ADA.
